

Gage Animal Hospital Pet Boarding Form

Boarding Policy:

In order to prevent the spread of infectious diseases and parasites, all boarded pets must be current on vaccinations and free from internal and external parasites. Pet owners must provide proof of current vaccinations and, for dogs, a negative fecal sample within the last twelve months prior to admission for boarding. If your pet is not current on these preventative health requirements, they must be updated at least 1 week prior to boarding check-in. Fleas and ticks on incoming pets will be treated at the pet owner's expense. Our hospital staff will take whatever precautions necessary to maintain a pet's good health. Should a pet become ill while boarding, it will be treated, at the pet owner's expense, in a manner deemed appropriate by the attending veterinarian.

Please list any belongings that you have brought for your pet:

Because our space to store pet carriers is limited, we appreciate those clients who are able to take their pet's carriers with them once their pet is safely admitted to Gage Animal Hospital. If you are able to take your carrier at admittance, please remember to bring it with you when you return for your pet.

Are there any health or behavioral concerns relating to your pet of which we need to be aware? If so, please explain:

Authorization:

I authorize the veterinarian(s) and staff of Gage Animal Hospital, P.A. to provide necessary vaccinations and parasite control as needed for my pet. **I understand that any health or anxiety condition that may develop with my pet while boarding will be treated as deemed appropriate by the attending veterinarian and I assume full responsibility for the treatment expense involved.**
